Also, John Larsen made a map for Don Hoffheins and I about 3 months ago. It had some of these features already listed on that map. I have a paper copy at my desk.

The Indian Creek Rock Art is really nebulous, it's all over the Canyon. It might just be easier to label 'Indian Creek'.

In an ideal situation, the shape files would be best. However, I think drawing them on a map would be fine with the short time frame I have to get the map finished.

Lynn, are you asking for us to track down shapefiles for you or just to draw these locations on this map?
